COURSES

Route Front-End Course

09/2024 – 02/2025 | maadi, Egypt

An offline Front-end course that cotains HTML, CSS, JS, BootStrap, JQuery, Tailwind and Angular Framework.

PROJECTS

UI Generator(UI Evolution)

01/2025 – 02/2025

An AI-Powered Generative System for Automated UI Designs

Creation Using Natural Language Prompts

Technologies: Bootstrap, HTML5, CSS3, TypeScript, Angular, 3D JavaScript

Developed an innovative AI-driven system designed to automate the UI creation process, leveraging advanced algorithms to generate functional and visually appealing components based on user input. Key contributions and features include:

- **User Authentication:**
- **Front-End Development:**
- **AI Integration:**

This project highlights expertise in front-end development, modern web technologies, and creative problem-solving to deliver a cutting-edge platform that simplifies UI design through automation. The dynamic 3D background and responsive design demonstrate a strong focus on user engagement and visual innovation.

E-Commerce(Nile-Mart)

02/2025 – 02/2025

Nile Mart – Committed to excellence in e-commerce by offering a vast array of products, secure transactions, and unparalleled customer support.

Technologies: HTML5, CSS3, TypeScript, LocalStorage (as Database), Responsive Design (100%), Angular (as framework)

Developed a fully responsive e-commerce web application with a user-friendly interface and robust functionality. Key features include:

- **User Authentication:**
- **Product Management:**
- **Shopping Cart:**

- **Favorites:**
- **Search & Filter:**
- **Profile Management:**
- **Responsive Design:**

This project demonstrates proficiency in front-end development, TypeScript, and utilizing LocalStorage as a lightweight database for persistent data management. The application prioritizes user experience with intuitive navigation, real-time updates, and a clean, modern design.

Portfolio

04/2025 – 04/2025

A web page that expresses my work, my qualifications for the job market, and ways to contact me.

Technologies: HTML5, CSS3, TypeScript, Angular, LocalStorage (as Database), Responsive Design (100%)

Overview: Developed a fully responsive portfolio website to showcase personal projects, skills, and experiences. The application emphasizes clean design, intuitive navigation, and efficient performance using Angular.

Key Features:

- **Project Showcase:** Displays a curated list of personal and professional projects with detailed descriptions and links.
- **About Section:** Provides an overview of personal background, skills, and career objectives.
- **Contact Form:** Includes a functional contact form allowing visitors to send messages directly.
- **Responsive Design:** Ensures optimal viewing experience across various devices and screen sizes.

Summary: This project demonstrates proficiency in front-end development, TypeScript, and utilizing LocalStorage for data management. The application prioritizes user experience with a modern design and seamless navigation.
