Profile

Front-end developer with Angular framework expertise. Proficient in C++ basics and Object-Oriented Programming, with solid foundation in data structures and algorithms. Skilled in HTML, CSS, JavaScript, TypeScript, and Angular framework through comprehensive training at Route Academy frontend diploma.

Education

Faculty of Computers and Information, Zagazig University   *2021 – 2025*
Bachelor of Computer Science

- Fresh Graduate from Computer Science program
- Strong foundation in data structures and algorithms
- Comprehensive study of C++ and Object-Oriented Programming

Experience

Front-End Intern   *June 2025 – July 2025*
Saiket Systems ↗

- Completed a one-month front-end internship focused on real-world UI challenges
- Developed and delivered 6 diverse front-end tasks within set deadlines
- Applied HTML, CSS, and JavaScript skills to practical projects
- All tasks were completed and submitted online successfully

Projects

UI Generator (UI Evolution) [Demo] ↗ [GitHub] ↗   *Jan 2025 – Feb 2025*

- Developed an AI-powered UI automation system for automated UI designs
- Built using Angular, Bootstrap, and 3D JavaScript
- Features include user authentication, responsive design, and dynamic visual components
- Enhanced user experience and streamlined front-end development processes

E-Commerce (Nile-Mart) [Demo] ↗ [GitHub] ↗   *Feb 2025*

- Built a fully responsive Angular e-commerce web application
- Implemented using HTML5, CSS3, and TypeScript with LocalStorage for data persistence
- Features include user authentication, product management, shopping cart, and favorites
- Integrated search/filter functionality and profile management with modern design

Portfolio Website [Demo] ↗ [GitHub] ↗   *Apr 2025*

- Created a fully responsive Angular portfolio website using TypeScript and LocalStorage
- Features project showcases, about section, and functional contact form
- Focused on clean design and user-friendly navigation
- Demonstrates professional qualifications and work for job market

Super-Mart (Supermarket System) [Demo] ↗ [GitHub] ↗   *May 2025 – June 2025*

- Built a responsive Angular supermarket website with TypeScript and LocalStorage
- Features user shopping interface and offers browsing functionality
- Developed comprehensive admin dashboard for product and content management
- Complete supermarket system with full administrative controls
